Facts and Info:

by

WHY TO CONSIDER THIS PRODUCT FOR AN AWARD?

1. It is the first fully certified, real wood veneered panel on the market.
2. It is Halogen-free and REACH conform
3. The material is sustainable – real wood veneer (Green Ship)
4. Designer can specify high-class real wood veneered surfaces instead of plastic laminate.
5. This panel opens new design perspectives to the yacht and cruise industry.
6. The open grain - wood veneer surface is sound absorbing and improves the noise level within the rooms, compared to a hard surface of a plastic laminate.
7. The product assures continuous appearance and quality of decorative surfaces throughout the whole project, regardless of the individual interior outfitting company.
8. The pre-finished panel shortens delivery time because the certificates are ready to be used by each individual contractor.
9. The veneer surface can be applied to wall- and ceiling panels, as well as to non-combustible profiles and even extruded aluminium profiles such as handrails and cornices.
10. Any non-combustible panel can be used as core material (Promat, Thermax, Fipro, ...)
11. It is available to any interior outfitting company working in the cruise industry.
12. The surface stays below the limits for combustible materials and can be calculated into the Fire load calculation without exceeding the limitations.
13. It makes the interiors of cruise ships safer.
